

# DIY Repair Program

## Making Simple Repairs Faster & Easier

(based on Keystone's offering at <https://www.keystonerv.com/diy-program>)

Keystone's do-it-yourself repair program and video library allows an owner the opportunity to repair simple items yourself and perhaps reduce the time and inconvenience associated with taking your unit to a dealer.

Some easy fixes that you may be able to complete yourself include repairs to blinds & shades, trim, cabinet doors, 12V lights, 12V light switches, door locks, door catches, graphics, gas struts, window handles & screens, fender skirts, seam tapes/wraps, stove & sink covers, shower heads/hoses, and vent covers. We've provided a library of how-to videos on this website to help you.

## VIDEOS & ADVICE

### DIY Video Library

Matt & Bart show you how to complete simple repairs successfully. Check out full list of operation, maintenance and repair videos.
